CHONK OUT

A cozy block-jam puzzle about very round cats

LIVE ON IOS · ANDROID BUILD READY · IAP + ADS INTEGRATED

Slide the chonks — round, sleepy, **extremely in-the-way** cats — out of the board through colour-matched gates. One-thumb sessions, readable at a glance, hard to put down.

The block-jam mechanic is 2025–26's breakout hybrid-casual puzzle subgenre (**Color Block Jam**: ~$6M/month; **Screwdom 3D**: ~$12M/month). Chonk Out enters it with a differentiated, character-first cozy identity — cats you want to look at, not just blocks to clear.

The game at a glance

CONTENT
101 hand-built levels; difficulty tuned level-by-level

DEPTH
One-way chonks, frozen cats, jars, chains, layered stacks

BOOSTERS
Laser pointer, cucumber scare, yarn ball

MONETIZATION
IAP + LevelPlay: interstitials, rewarded, banner — live and tuned

RETENTION HOOKS
Lives system, ad-free onboarding, local notifications

TECH
Unity 6 · EN/TR · CI/CD pipeline, weekly update cadence

Screens

What we're looking for

A publishing / UA partner to scale a shipped, monetizing title. Live retention and monetization data available under NDA. A signed Android App Bundle is ready — the Google Play launch can go live immediately under a publisher account. The game is in active production with fast iteration: balance changes, events and creative variants ship within days, not sprints.

App Store · Gameplay video

Kyro Games — independent studio, Türkiye. Sister title *Moonpaw Manor* also live on the App Store.
